****The Architecture of Light and Space**** The proposed design prioritizes the seamless transition between the interior sanctuary and the wilder beauty of the outdoors. The concept features: *

****Living Quarters:**** Four spacious bedrooms and four bathrooms, designed for privacy and repose.

* ****The Social Core:**** An open-plan living and dining area anchored by a designer kitchen with a central island, framed by floor-to-ceiling glass that dissolves the boundary between the living room and the horizon. *

****Outdoor Integration:**** Expansive sun terraces that lead to a private swimming pool, positioned to mimic an infinity edge against the backdrop of the mountains and sea. *

****The Grounds:**** A...(Ask for More Details!)
